DETAILED ACTION

1. This Office Action is responsive to the U.S. Application Ser. No. 10/696,209 filed on October 28, 2003, claims **1-20** are pending in the application.

Examiner's amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The specification has been amended as follows:

Paragraph 1, after "June 15, 2001", insert -- **now U.S. Pat. No. 6,661,733, issued on Dec. 9, 2003, --**.

The examiner's amendment has been made in order to place the application in a condition for allowance.

Examiner's Statement of Reasons for Allowance

3. Claims **1-20** are allowed.

Ngai et al. (US 6,400,635), Katakura (US 6,044,034) and Usami et al. (US 5,307,322) disclose a programmable logic device and associated method similar to that of the present application, but fail to teach:

"selecting a column select line to activate a third device coupled between the first device and a first node of a memory cell, and a fourth device coupled between the second device and a second node of the memory cell" as claimed in the independent claim **1** and dependent claims **2-5** are also allowed; or

“driving word lines coupled to the even numbered memory storage cells in the column of memory storage cells with the comparand; and driving word lines coupled to the odd numbered memory storage cells in the column of memory storage cells with a complement of the comparand” as claimed in the independent claim **6** and dependent claims **7-9** are also allowed; or

“asserting a write enable signal, which asserts a column select line thus activating a first and second device; and asserting a word line thus activating a third and fourth device, wherein the first and third devices are coupled between the data line and a first node of a memory cell, and the second and fourth devices are coupled between the complementary data line and a second node of the memory cell” as claimed in the independent claim **10** and dependent claims **11-14** are also allowed; or

“sensing an impedance between a first node and a second node, wherein the first device and a second device are coupled in series between the first node and the second node, the second device having a gate coupled to a first node in a memory cell, and wherein the word line couples to a third device and a fourth device, the third device and fourth devices used for writing to the memory cell” as claimed in the independent claim **15** and dependent claims **16-20** are also allowed; or

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comment on Statement of Reasons for Allowance”.
